

YOUR SPLASHING TITLE

Your Noble Name

Your sweet CUHK

in collaboration with Your bosses, students, and colleagues

Your grand occasion, May 17, 2024

I Introduction

What you can get from this template

- ▶ Items in CUHK-purple.
- ▶ **Alert text** in CUHK-brown.
- ▶ A separation line, sometimes you need it.
- ▶ A block to put your theorem, lemma, etc.
- ▶ You can put a border around a figure, see the next slide.
- ▶ A thanks page.

Riemann-<Your name> Theorem

The Riemann Hypothesis is **true**.

What you can get from this template

Figure: A caption for the figure (just for demonstration).

You may notice that the background color is **not** pure white. I provide a border around the figure to make a natural color transition.

1. This is a **minimalist** template, you can add more features if you want.
2. Do **not** be afraid of those \LaTeX commands.
3. Check the **source code** to see how I **copy** implement those features.
4. Use **LuaLaTeX** to unlock the full potential of Beamer!

Thanks for your attention!
